Cadauetic Underground

For all of the nefarious sinners with the deepest addiction to insane hellish noises, I would like to inform all of you, that the infernal trapdoors from the depth of the darkness are now reopened for you once more. You will be slowly swallowed into an underworld of obscure noise, with the most violent manifestations full of maggots ready to consume your rotten flesh and devour your retarded mind, because on this underworld only the miserable diseases of noise will prevail with the nasty human remains properly bottled with corrosive poison, ready to be consumed in lethal doses with the upcoming releases and protests in the filthy noise campaigns from Murder Records...

As you maybe know the complex chaos in the schizophrenic pathology behind the Bandcamp, Soundcloud and Youtube Noiseletter are active and chronically updating, with all news from my retarded mind to feed all the insane rats and keep them properly updated about my latest noise campaigns or releases...

You can feel free to share this noise shit just to bother everyone with it... Make them suffer and die slowly with fast noise!!!

You can order or pre-order the newest releases by visiting the Hellstore or the Discogs or just contact me via mail at: order@murder-records.com

Trades are also welcome but write first and send your complete trade list to wholesales@murder-records.com
