### **East Haven Together AGM April 2018 Report from Lead Trustee**

East Haven Together will be three years old in July 2018 and has had another busy year taking forward initiatives which meet the aims of the charity. We are very grateful to the many individuals and organisations who support all our efforts. In particular, Landmarc services at Barry Buddon, Greg Davidson Accountant, Scottish Water, Angus Council, Catchment Tay Ltd and members of the Scottish Wildlife Trust.

East Haven Together is also very grateful for donations and grants received during the year which totalled £28,190. A crowdfunding appeal was supported by a grant from Angus Council Community Grants and Awards4All lottery funding to provide a Defibrillator and Village Emergency Telephone scheme. Thanks also go to, Carnoustie Golf Links Management Committee for funding cycle racks and a community learning garden, the Co-op in Carnoustie for Heritage and Garden funding, SSE for funding an emergency services track and to the Scottish Government for a resilience shed. For Carnoustie, who funded improvements at Mary's Meals corner and the Scottish Communities Alliance who funded a Community Learning Exchange with Blairmore. Finally, we are very grateful to LEADER in Angus for funding the Litter Summit and the production of a Litter Prevention Action Plan. Taking forward anti-littering work across Angus is a major initiative for East Haven Together and we continue to drive forward this work through a new group we have established called Angus Clean Environments (ACE).

During the last year a total of £3678 volunteer hours was committed and the economic value of that work has been costed at £57,174. As a result of everybody's efforts, East Haven was awarded a 'Gold' in the Beautiful Scotland Awards and the Best Coastal Village Trophy. We were also delighted to be awarded the Scottish Resources Award for best anti-

littering initiative. East Haven also remains the only place on mainland Scotland to achieve a community led beach award. All of these activities make the village stronger and more resilient. It is not surprising therefore that East Haven developed it's first formal resilience plan in 2017 which, amongst other things, saw us improving access for emergency services, purchase a defibrillator and introduce a Village Emergency Telephone scheme.

Other less well known activities in which we have been involved over the last year include responding to planning developments and public consultations such as the extension to the Anaerobic Digester plant and also the redesign of acute in-patient and learning disability services in Angus. We are extremely grateful to Alasdair and Joanne who have represented the interests of East Haven during the last three years on Carnoustie Community Council. However, Community Councillors will stand down for the new elections in October so if anybody has an interest in the wider community please consider putting yourself forward for election.

East Haven has also delivered a number of presentations over the year to National and local groups. The aim is not to promote ourselves but to share our experiences and empower others to take more responsibility for the areas in which they live.

Finally, I would like to extend my personal thanks to all members, volunteers and charity Trustees for their hard work and commitment during the last year. Every contribution no matter how small strengthens East Haven and the wider community so every action counts.

Thank you for your continued support

Wendy Murray  
Lead Trustee, East Haven Together
