Koponen, T. 2014: Notes on *Philonotis* (Bartramiaceae, Musci). 13. Status of *Philonotis minutifolia*, *P. pilifera*, *P. seriata* var. *persica*, *P. tjibodensis*, *P. treubii* and *P. turneriana* var. *robusta*. – *Acta Bryolichnologica Asiatica* 5: 133–140.

Philonotis minutifolia E.B. Bartram is synonymized with *P. hastata* (Duby) Wijk & Margad., *P. pilifera* Dixon ex E.B. Bartram with *P. vescoana* (Besch.) Par., *P. seriata* Mitt. var. *persica* Schiffner with *P. fontana* (Hedw.) Brid., *P. treubii* (M. Fleisch.) Broth. with *P. calomicra* Broth., and *P. turneriana* (Schwägr.) Mitt. var. *robusta* E.B. Bartram with *Fleischerobryum longicolle* (Hampe) Loeske. *Philonotis tjibodensis* (M. Fleisch.) Broth. is a distinct species separated by several characters from *P. bartramioides* (Griffith) D.G. Griffin & W.R. Buck. The lectotype is designated for *P. seriata* var. *persica*.
