Koponen, T., Enroth, J., He, X. & Piippo, S. 2014: Bryophyte flora of Hunan Province, China. 17. Excursions to Badagongshan, Daweishan, Shunhuangshan and Yunshan Nature Reserves in 2000 and 2001; description of collecting areas and lists of localities. – *Acta Bryolichenologica Asiatica* 5: 25–38.

The studies on the bryoflora of Hunan Province of China were continued by collecting expeditions to the Badagongshan and Daweishan National Nature Reserve in 2000 and Shunhuangshan and Yunshan Nature Reserves in 2001. The study areas, collecting localities and collector numbers are listed. H. Handel-Mazzetti's bryophyte collections from Yunshan are reviewed. The Hunan project papers published until now are enumerated in an Appendix.
