- Staff adhere to the guidance provided with the system at all times to ensure all children are safeguarded.

Use and/or distribution of inappropriate images

In the event of a concern that a colleague or other person is behaving inappropriately, the Safeguarding Children and Child Protection policy, in relation to allegations against staff and/or responding to suspicions of abuse, is followed.
- Staff are aware that grooming children and young people online is an offence in its own right and concerns about a colleague's or others' behaviour are reported (as above).

Personal Mobile Phones – children

- Children do not bring mobile phones or other ICT devices with them to our setting. If a child is found to have a mobile phone or ICT device with them, this is removed and stored in a locked drawer in the office until the parent collects them at their time of collection.

Personal Mobile Phones – staff, parents and visitors

- Personal mobile phones belonging to members of staff are not used whilst staff are working.
- At the beginning of each individual's shift, personal mobile phones are stored in the lockable office.

- Members of staff ensure that the telephone number of the setting is known to immediate family and other people who need to contact them in an emergency.
- If members of staff take their own mobile phones on outings, for use in the case of an emergency, they must not make or receive personal calls or take photographs of the children.
- Parents and visitors are requested not to use their mobile phones whilst on the premises. There is an exception if a visitor's company or organisation operates a lone working policy that requires contact with their office periodically throughout the day. Visitors will be advised of a quiet space where they can use their mobile phone, where there are no children present.
- These rules also apply to the use of work-issued mobiles, and when visiting or supporting staff in other settings.

Cameras, Videos and other Electronic Devices

- Members of staff must not bring their own cameras or video recording equipment into the setting.
- Photographs and recordings of children are only taken of children if there is written permission to do so (found on the individual child's Registration Form).
- Photographs and recordings of children are only taken for valid reasons, i.e. to record their learning and development, or for displays within the setting. We seek parental consent before any photographs are used on our website or on any social media sites.
- Photographs or recordings of children are only taken on equipment belonging to the setting.
- Camera and video use is monitored by our Manager.
- Where parents request permission to photograph or record their own children at special events, permission will first be gained from all parents for their children to be included. Parents are advised that they do not have a right to photograph anyone else's child or to upload photos of anyone else's children.

Computers & Data Storage

- No information containing personal details or photographs of children and families at the setting will be stored on a home computer.
- If staff use their own computers for planning, observations etc. containing children's names they should transfer the data to a memory stick and erase it from their computer as soon as this is done.

- Memory sticks & external disk drive/back up are held in a secure place at home or at the setting.
- The settings cameras and computers are stored safely whilst the pre-school is closed.
