

## Application for Memorial Floor Plaque

The W.I.C.H group have created a unique opportunity for you to reserve a memorial floor plaque, produced in natural grey granite; they will be affixed to the floor area within the new Knowsley Cemetery Memorial Building. Each plaque measures 4" x 4" and accommodates a single name. The memorial plaques will be installed once the building has been constructed and will form the total floor area within the building.

Each memorial plaque will cost £30.00 and this will include installation. Please do not enclose payment as this is an expression of interest only. Once the memorial building has been built we will contact you again to confirm your order.
