

Leave her Johnny !

Shanty

Heave away the pumpbowles bright
Leave her Johnny, leave her
There'll be no sleep for us tonight
There is time for us to leave her

The rats have left her, we, the crew
Leave her Johnny, leave her
It's time, be damned, we leave her to
There is time for us to leave her

Heave away, or we shall down!
Leave her Johnny, leave her
Say, can't you feel her settling down?
There is time for us to leave her

The ship will surely go below
Leave her Johnny, leave her
I think we'll better leave her now!
There is time for us to leave her

Oh captain don't you wait for prime!
Leave her Johnny, leave her
We better man the boats in time!
There is time for us to leave her
