In re AT 5-4532 and in re AT 5-3829

Dear Mr. Butler, dear Sir or Madam,

With regard to your e-mail of 11 April 2017 (last in the e-mail exchange as attached) and to the EPO's reply of 20 March 2017 to this complaint which I received yesterday on 26-4-2017, I have the following comments, questions and requests:

1. Thank you very much for noting my request to join these two cases, yet I understand from you that they are not currently joint yet.
2. Given your earlier instruction (in some of my other cases, cf. your e-mail of 7 August 2015, among others) to remove cross-references to documents provided in other procedures it is unclear to me how I can "provide additional arguments and evidence" in reply to the EPO's new allegations in their latest submission in re AT 5-3829, for instance on my alleged additional meetings with Dr. Koopman within the medical committee procedure, without being allowed to refer to such new allegations by the EPO and refute them. Could you please clarify?
3. In view of my fundamental right to reply to the EPO's new allegations in re AT 5-3829 I maintain my procedural request under 6. of my e-mail of 4 March 2017 (as attached).
4. In view of the term of 30 days granted to me for my rejoinder in re AT 5-4532 in reply to the EPO's extensive reply of 28 pages with 30 Annexes, this term having started from the day of receipt, i.e. from yesterday, and in view of the extremely generous extension of 60 days provided to the EPO's two specialised professional lawyers for their reply, I urgently request an extension of 90 days for my rejoinder in re AT 5-4532 due to my chronic illness and to my personal obligations, my own administration, my social life, necessary repair works at my home, and the like.

Please confirm receipt for this e-mail.

Awaiting your prompt reply,
Sincerely yours,

Anette Koch
