6. REPORTS FROM DISTRICT AND COUNTY COUNCILLORS

6.1 County Councillor Quinn via – None

6.2 District Councillor Shuttleworth – Written report circulated points raised:

- The recently published Planning White Paper requires local planning authorities to discard their present Local Development Plans and draw up new Plans in half the time it has taken Craven to prepare its recently adopted Plan. It is believed that the Aire Valley south of Skipton will be designated as a Growth Area. National Parks will be Protected Areas.
- Yorkshire Water Engineering section is currently working on options for upgrading solutions for the limitations in the Brackenley Drive sewer. These will then be considered in relation to costs and prioritised appropriately along with all the other sewer problems in the YW network. The main driver of prioritisation is the pollution of water courses, incurring the wrath of the Environment Agency or sewage entering properties. I was advised that the sewer storm overflow by the Cavendish Arms will prevent any increased volume of sewage from entering the 'lower' part of the system where problems currently occur and therefore any increased discharges from the proposed developments along Shires Lane should not have an adverse effect on the Skipton Road/Brackenley areas.
